

Broadband Global Area Network Mobile Service (BGAN)

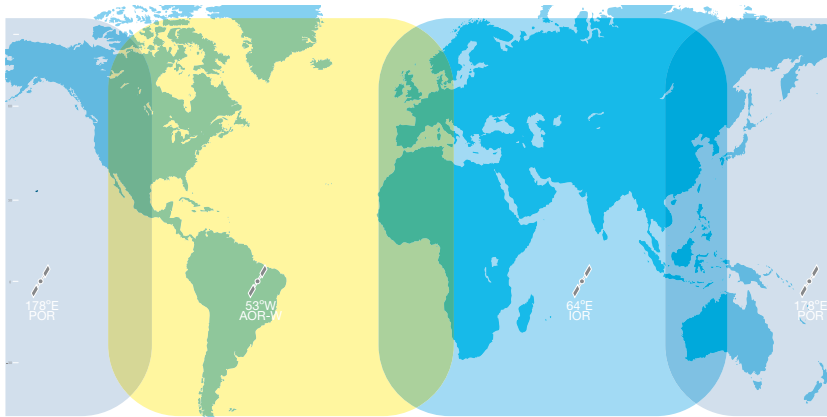

Unbroken connectivity with business contacts, friends and family – regardless of location, time or scenario – is a hallmark of PCCW Global's BGAN solution.

Users can communicate freely with SMS, voice, ISDN, VPN to HQ, high-speed broadband Internet access, and even video conferencing.

Key benefits to your business

- Truly global coverage and reliable broadband access even where telecoms are poor or non-existent.
- Reliable connectivity from places such as disaster areas, war zones, sports venues and remote construction sites.
- A diversity of services includes broadband data and international voice, Internet, email, videoconferencing, MPLS VPN, ISDN, SMS and Voice-over-IP (VoIP).
- Light and easy-to-deploy user terminals provide portability and highly reliable and secure communications

Service coverage

Coverage: Americas, Africa, Europe, Middle East, Asia

 F1 I-4 satellite  F2 I-4 satellite  F3 I-4 satellite (Planned in 2008)

Enterprise Solutions

Best Managed Service

Network diagram

The BGAN Hub station in Europe is interconnected with PCCW Global's extensive IP Backbone, which enables seamless extension to the corporate headquarters using our global MPLS VPN backbone available in over 1,000 cities worldwide.
